

CustomPlus™ Synthetic Blend Motor Oil

SF/CF

CustomPlus™ SF/CF Synthetic Blend Engine Oil features Group II hydro-treated base oils in formulation with a proven DI additive package for use in older diesel and gasoline engines. **CustomPlus™ Synthetic Blend Engine Oil** is designed for use as an economical alternative for older out of warranty automobiles by combining versatility, heavy-duty engine protection and cost effectiveness into one motor oil. **CustomPlus™ Synthetic Blend Engine Oil** is formulated with high levels of dispersants and detergent additives providing effective control of sludge and varnish to help prevent corrosion, wear and deposits that today's engine oil's aren't equipped to handle.

CustomPlus™ Synthetic Blend Engine Oil is excellent for all-season use in automotive diesel and gasoline engines. This product has been extensively tested and performs well in automotive service applications and is compatible with API approved engine oils where a SF/ CF motor oil is recommended.

FEATURES / BENEFITS

- High ZDDP content for wear protection, deposit and viscosity control
- Provides protection and durability, helping to prolong engine life
- Maintains engine cleanliness with good soot control and detergent system
- Think film technology creates a protective layer on critical engine parts

APPLICATIONS

- Engines which specify API SF/CF
- Satisfies automotive engines calling for mono-grade engine oils
- Works well with both on and off highway diesel engine fuels
- Safe for use with high sulfur content fuel

RECOMMENDATIONS / SPECIFICATIONS

For use where API classifications are specified
SF/CF

Caterpillar TO-2
Allison C-4

SPECIAL HANDLING, NOTICES, OR WARNINGS

Use the care and handling used for petroleum products

TYPICAL PROPERTIES

Property	Unit	SAE 30	SAE 40	SAE 50
Density	lbs/gal	7.25	7.36	7.43
Specific Gravity	spgr	0.872	0.885	0.891
Flash °C	°C	215	220	238
Pour °C	°C	-25	-21	-15
Viscosity @ 100°C	cSt	10.5	13.8	17
@ 40°C	cSt	67	100	150
VI		145	134	122
TBN	mg KOH/g	7	7	7

Typical test data are average values only.

Minor variations which do not affect product performance are to be expected during normal manufacturing.
